
Local Authority & Public Service Database

The comprehensive solution to targeting decision makers within the UK's biggest spending sector. The Local Authority & Public Service Database provides total access to the local authorities & public services, encompassing local, regional and central government, nhs, education and housing sectors.

The database is compiled and maintained through continuous mailing, telephone and desk research activity, ensuring a level of accuracy which is the envy of the industry.

Local government is broken down into the main areas of district, county, metropolitan, London and unitary councils and offers an extensive range of selection opportunities allowing for precise targeting of the right sector and contact for your campaign.

Selection can be made on the following areas of responsibility:

Administration/Planning	Legal/Law & Order
Building & Engineering	Library/Information
Economic Development	Partnership/Co-ord
Education	Human Resources
Emergency Services	Purchasing
Energy/Environmental	Recreation/Sport
Fisheries and Food	Regulation/Control
Health	Social Security
Heritage/Museums	Social Services
Housing	Telecommunications
IT/Computing	Training
Land/Property/Estates	Transport/Highways
